

Brainstorming & Idea Prioritization Template

Date	25 June 2026
Team ID	
Project Name	Hydra Shield: An Intelligent Flood Prediction and Early Warning System (Rising Waters)
Maximum Marks	3 Marks

Step 1: Brainstorm and Idea Listing

Each team member lists out as many ideas as possible without judging them at this stage.

S.No	Team Member	Idea / Suggestion	Category	Group No.
1	Shaik Muskaan	Develop an AI-powered flood prediction system using multiple ML algorithms.	Machine Learning	
2	Shaik Muskaan	Build a Flask web application for instant flood risk prediction.	Web Application	
3	Shaik Muskaan	Improve prediction accuracy through effective data preprocessing and feature engineering.	Data Engineering	
4	Shaik Muskaan	Compare multiple ML models to identify the most accurate predictor.	Model Evaluation	
5	Shaik Muskaan	Design a cloud-ready system for scalable flood monitoring and prediction.	Cloud Computing	

6	Shaik Muskaan	Incorporate explainable AI to improve trust in flood prediction results.	Explainable AI	
---	---------------	--	----------------	--

Step 2: Idea Prioritization

Rate each grouped idea on feasibility and importance, then select the final idea(s) to move forward with.

Group No.	Final Idea	Feasibility (High/Medium/Low)	Importance (High/Medium/Low)	Priority	Selected (Yes/No)
1	AI-powered Flood Prediction using Machine Learning Algorithms	High	High	1	Yes
2	Flask-Based Real-Time Flood Risk Prediction Web Application	High	High	2	Yes
3	Cloud-Ready Flood Prediction System with Explainable Analytics	Medium	High	3	Yes
